European companies and US subprocessor locations

Among 147 European-headquartered companies in our sample that include processing countries in their public subprocessor table, 118 (80.3%) list at least one subprocessor processing data in the United States, with a median of 4 US-based subprocessors per company.

How we counted

Trust Center hosts were detected from trust.<domain> and security.<domain> DNS CNAME records, archived homepage compliance links and portal HTML/JSON markers across 75,722 domains on 2026-11-19. Full company-level records and CSV exports are available on /subprocessors, and vendor-specific lists are linked in the tables above.
